

AMATEURS FIGHT FIRE FOR HOURS, THEN CALL HELP

Outbreak at Chelsea Jute
Plant Too Much for Its
Private Firemen.

Fires are of such common occurrence in the immense plant of the Chelsea Jute Company, Manhattan avenue and Commercial street, Greenpoint, that the 270 employees worked along calmly for nearly three hours to-day, while the private fire department of the corporation fought a blaze in the basement. The amateur firemen, however, were unable to cope with the conflagration, which threatened to get away from them, and alarm was sent in. Deputy Chief Gooderson, knowing that when an alarm comes from the Chelsea Jute plant there must be something doing, went with the engines and trucks and took charge of the situation.

He found the fire in a storage of the cellar devoted to the storage of oakum. There was no blaze, but clouds of stifling smoke sifted through the closely packed inflammable material. The first order issued by Chief Gooderson was that the oakum should be removed from the cellar.

POLICEMAN HALTS FIRE.

Broke Window, Owner of Building
Said He Was Careless.

Policeman Berry, of the West One Hundred and Twenty-fifth street station, discovered a fire in a pile of paper in the rear of Block's butcher shop on the ground floor of No. 112 West One Hundred and Sixteenth street at 6:20 o'clock this morning. The policeman broke a window with his stick and put out the blaze without calling the engines. The loss was \$10.

"You are rather careless with windows," Black remarked after the fire was out. "I'll have to pay for this window."

ABRUZZI IN PARIS.

PARIS, Feb. 18.—The Duke of the Abruzzi is at present in Paris incognito as Signor Negretto. He is buying a medical outfit to be used on his approaching expedition to the Himalaya Mountains.

IMPALED ON HIS OWN KNIFE AS CROWD CHASED HIM.

Man Who Had Stabbed Two in
General Fight Falls on His Weapon
and Is Fatally Wounded.

PHILADELPHIA, Feb. 18.—Fifty men had a free-for-all fight at Richmond and Somerset streets early to-day, in which three were taken to the Episcopal Hospital, where it was said one of them would probably die. The fight began when Michael Phelock, twenty-four years old, and John Coloski, the same age, met at the corner prepared to settle a dispute. Each was accompanied by friends, all of whom soon got mixed up in the fight. Coloski was the first to start hostilities. Pulling two knives from his pocket he stabbed Phelock in the right side twice and then plunged his weapon four times into the right side of John Sawyer, a friend of Phelock. He then fled, pursued by the crowd.

As Coloski passed a saloon at Richmond and Somerset streets he hurled one of his knives through a window but held the other in his right hand. A few feet further on he tripped and fell. His arm doubled under him and the knife he carried was plunged into his stomach. The wound is probably fatal.

TUBERCULOSIS NO LONGER A FATAL DISEASE

At the recent Tuberculosis Congress held in Washington, D. C., the noted scientists and specialists unanimously endorsed and recommended X-ray examination of the chest as the only way to know existing conditions or to make a positive diagnosis of the early and different stages of tuberculosis, heart disease and their kindred ailments.

The remarkable success of Dr. Anderson's cure of diseases of the Lungs, Heart, Liver and Stomach is due to the use of his wonderful and scientific invention, the Anderson X-ray Apparatus, for the early and positive diagnosis of these organs.

One of the many hundreds of Dr. Anderson's cured patients says (name given if desired, for reference):

"I had Consumption; all my neighbors knew it and several doctors had said it was incurable. A professor of Cornell University advised me to be examined by the Dr. Anderson X-ray Light, in order to find out positively the exact extent and stage of my disease."

"The examination by this light showed that I had tuberculosis of one-half the right lung, with ulceration and some breaking down. I had chills, fever, night sweats, cough, hemorrhages, shortness of breath, no appetite and was losing flesh and strength."

"I did not think I could be cured, for I had tried so many cough medicines without any benefit, and several prominent doctors had failed to correctly diagnose or reach my case or cure me."

"But after being examined by Dr. Anderson I knew that at last my disease had been correctly diagnosed, and I began his Lung Vapor Inhalations and Vibratory treatment and improved from the very first treatment."

"All the dreadful symptoms of my disease gradually stopped, and within three months I had gained 22 pounds. And now that I am well and strong I want others sick like I was to know where they can be cured by an easy, pleasant, soothing and speedy course of treatment based upon a positive diagnosis."

Consultation and examination given free by Dr. Anderson at his office, 50 West 23rd street, New York, between 5th and 6th avenues. Hours—10 to 4. Monday, Wednesday and Friday evenings till 8 o'clock; Sundays, 11 to 2.

THE HOSE THAT WEARS LIKE IRON

Irontex

The Stockings bearing the "Irontex" brand are, first of all, made on full-fashioned frames, which means that their shape is knitted into them. They are made of selected long staple cotton, and their soles, heels and toes are spliced, or reinforced, with imported Irish linen yarn. There you are! Fine cotton plus strong linen. That makes the "Irontex" Stockings soft where they should be soft and strong where the wear-strain is hardest.

Make comparisons. No person is too ignorant about fibre, and finish, and fineness, and form in Stockings not to see how much better the "Irontex" goods are than the ones selling at a third more.

Men's "Irontex" Half Hose

Black, tan, green, helio, cadet, slate, navy, Burgundy,

Women's "Irontex" Hose

Black and tan.

Children's "Irontex" Hose

Black and tan.

A Wish Frequently Expressed by Many May Now Be Realized

Many customers who have learned of the splendid wearing qualities of our **Irontex** Hosiery by buying the above quality have often asked why we did not enlarge the variety by adding better grades.

We took the hint and have done that very thing.

During a recent visit to Germany our Hosiery buyer made arrangements with a leading manufacturer to produce the new and finer lines. The first shipment of them has just landed.

Soles, heels and toes are spliced with genuine Irish linen, and the Stockings will outwear all others of their weight.

Women's "Irontex" Hosiery

Black medium-weight Cotton with split feet, 29c.

Black Light-weight Cotton, 33c.

Black Gauze Lisle, garter tops, 33c.

Gauze Lisle, garter tops, in sky, pink, white, red, Copenhagen and Nile, 33c.

Men's Black Gauze Lisle Thread Half Hose, 33c.

Buy Furs Now and Here

A casual inventory of the Furs shows that in mid-February there are some very rich garments among the unsold balances—not many, true, but the ones that linger ARE choice.

Fur-selling time is short; therefore we make the prices shorter. The appended list indicates the character of the values we offer.

Why not buy at the end of this winter for the beginning of next winter? How can your money earn a bigger dividend?

for \$564.00 Alaska Seal Coat, semi-fitted model, with deep shawl collar; brocade lining.

for \$524.00 Eastern Mink Coat, composed of about 65 dark, handsome skins, with two-striped border at the bottom; large shawl collar and deep cuffs; brocade lining.

for \$224.00 Hudson Seal Coats, of best quality lustrous dyed pelts, in several distinctive models; heavy brocade lining.

for \$169.00 Caracul Coat, very flat, lustrous skins; semi-fitted model, with shawl collar and broad cuffs; heavy brocade lining.

for \$75.00 Moire Russian Pony Coat, light weight skins; half-fitted back, military collar; brocade silk lining.
